

LA SCENE

LA SCENE
MILLENNIUM

An exceptional auditorium for your professional and cultural events.

As a technological emblem of the Millennium, la Scène offers a prestigious setting and state-of-the-art integrated equipment unique in Switzerland. This 500 m² auditorium is designed to host congresses, conferences, shows, concerts, and video productions.

Exceptional space

An immersive experience for unique events.

La Scène is the ideal place to host your congresses, conferences, company events, as well as to carry out video productions, organize concerts, and live performances.

This auditorium incorporates the best in sound and video diffusion technology, offering exceptional quality and the possibility to create stunning lighting atmospheres. There are no limits to creativity in enhancing the staging of your events

With a stage space of 120 m², a spectacular 22 m x 4 m LED screen, and a complete audiovisual control room, la Scène allows for the creation of unique and fully customizable immersive experiences. It is a true space for creativity and innovation where your ideas come to life!

Capacity and flexibility

La Scène has a capacity of 500 seats, with 400 seats in the grandstand. The spacious leather seats are equipped with USB-C ports and electrical outlets for added comfort. The stage space and motorized platforms offer great flexibility to meet the specific requirements of your event.

SQ Meters  800 m ²	Bleachers  391	Balcony  87	Artiste lodge  5	Scene area  120 m ²

Removable podiums

La Scène is equipped with 7 independent motorized podiums that can be adjusted in height, offering various stage setups. You can customize la Scène's configuration according to your needs, adding a dynamic touch to your events.

Exclusive artist dressing rooms

Five spacious 70 m² artist dressing rooms with individual bathrooms are available for the comfort of presenters and artists. Equipped with screens with video and audio feedback, the dressing rooms are connected to la Scène through relaxation areas.

Cutting-edge technologies

Innovation at the heart of audiovisual technologies.

La Scène's state-of-the-art audiovisual equipment, operated by a dual control room, ensures complete mastery of your event!

From conception to execution, our audiovisual team is by your side to provide you with high-quality technical assistance.

LED Screen

A 22 m x 4 m LED screen with a resolution of 11264 x 2048 pixels, a pitch of 1.9, an ultrapowerful video processor (ALQUILON RS4).

Integrated Lighting

An automatic lighting system controlled by a GrandMA3 console, along with the Black Trax automated tracking system, allowing for multifunctional lighting ideal for congresses, shows, and televised productions.

Immersive Sound

A Meyer Sound LINA™ line array sound system certified for Dolby Atmos™, delivering powerful and unparalleled immersive sound.

Video Capture and Distribution Solutions

Cutting-edge video capture solutions for organizing hybrid or duplex events (streaming to Zoom, Microsoft Teams, YouTube, etc.), ensuring high-quality broadcasting to connect your event live.

Available Wi-Fi

Customizable connection portal and other options available upon request.

Integrated Control Room

Dual integrated control rooms ensuring perfect control of your event from conception to execution (translation, live broadcasting, lighting, sound, and more).

Plug & play

Our secure «plug & play» solution provides you with unparalleled benefits, particularly in terms of installation speed and ease of use. You no longer have to worry about the technical aspects, everything is ready to welcome you.
