STRONGER

Stronger is a signature class by our coach Laurine that combines strength training and cardio workouts. It's an intense sport that allows you to expend energy while feeling good

POWER UP

High-Intensity Interval Training (HIIT) method. A session consists of alternating periods of very intense effort and recovery. The exercises are typically bodyweight exercises and are performed together.

BARRE WORKOUT

This class combines dance-inspired movements with high-intensity exercises to sculpt and strengthen your body, both at the barre and on the floor. You will improve your endurance, flexibility, and coordination.

SKI POWER

With this specific ski season training course for all levels, work all your muscles to improve your endurance, strength and agility.

PILATES

A gentle gymnastics method that focuses on developing deep muscles, improving posture, and protecting the spine. It is practiced on the floor with the use of small equipment.

SKILLBIKE

An intensive group training method on an ergonomic stationary bike. The SkillBike allows for a strong cardio-respiratory workout while providing a complete lower body strengthening.

STRETCHING

Once confined to the physical preparation of athletes, stretching is now considered a standalone sport or activity.

YOGA

A discipline that combines physical postures, breathing exercises, and meditation. The class offers a combination of different types of yoga: Hatha, Vinyasa, and Yin Yoga.

KNOCK-OUT

French boxing, alternated with cardio training to work on your technique while burning maximum calories. Move between different workstations, strengthen your muscle tone, coordination, and speed.

CORE POWER

A high-intensity 30-minute class targeting your abs while incorporating overall strength training. Designed for circuit training enthusiasts looking to add an extra dimension to their usual workouts.

Type of training

- Muscle strengthening
- Cardio training
- Well-being
